### **International Activities**

In his professional career over the past 20 years, Mr. LIU ZiPing has been actively involved in promoting multilateral and bilateral exchanges and cooperation in the field of ICT between China and international organizations (such as ITU, APT, APEC TEL) and other countries. His long years' deep involvement in international cooperation has empowered him with rich experience, profound knowledge and insight, strong strategic and managerial leadership as well as excellent coordination and communication skills:

- For APT: Serve as Vice-President of GA; Participated in MC (1999, 2007, 2008, 2009, 2010), GA (1999, 2008, 2009, 2017), Ministerial Meeting on Broadband and ICT Development (2004), ICT Ministerial Meeting (2014, 2019); Facilitated cooperation with APT by coordinating Chinese participation in its activities at various levels and organizing regularly workshops and training courses in China on ICT policy, development and new technologies for other developing members;
- For ITU: Serve as councilor from China; Participated in TSAG (1996),

Councils (1996, 1997, 2018), WTPF (1998), WTDC (1998), WRC (2003, 2019), World Telecom (2006, 2018), Connect Africa Summit (2007), PP (1998, 2018); WSIS Forum (2018); Played a key role in facilitating organization of 2006 ITU World Telecom in Hong Kong, China, the first one ever held outside of Geneva; Facilitated cooperation with ITU by coordinating Chinese participation in its activities at various levels, organizing training workshops in China and promoting joint projects for developing countries;

- For APEC TEL: Participated in Working Group meetings every year from 1999 to 2011 and APEC TELMIN (2000, 2002, 2005, 2008, 2010); Played a key role in hosting successfully the 5th APEC TELMIN (2002, Shanghai) and 43rd APEC TEL WG Meeting (2011, Hangzhou); While serving as the Chair of APEC TEL from 2009 to 2011, played an active part in facilitating member's participation and contribution in substantive discussions and project-based cooperation on policy, regulation, development and network security as well as developing jointly strategic plan for future activities;
- For China-ASEAN Cooperation: Participated in various meetings for China-ASEAN ICT cooperation, including Working Group, Regulators' Council, SOM (2013, 2014, 2015, 2016), and ASEAN Ministers Meeting with China (2013, 2016); Initiated joint cooperation programs and organized in China a series of joint workshops, training courses and on-site visits for ASEAN managerial and technical personnel, covering a wide variety of areas, such as broadband, universal service, mobile communication, network security, IoT and digital economy.

## **Commitments**

### **Maximize the Value of APT In the Age of Digital Transformation**

Today, the advent of digital transformation driven primarily by ICT has brought about profound changes to our society, life and mode of production, playing an increasingly important role in boosting economic and social development and in achieving UN 2030 Agenda for Sustainable Development. Globally, Asia-Pacific Region is one of the regions that boasts the fastest growth in the field of ICT and digital economy, while confronting enormous imbalance in the level of development. APT, as an important intergovernmental organization for ICT in the region, should play a more active role in the following areas:

- Strengthen efforts to promote technological developments and standardization of the ICT sector, participate more actively in global coordination for ICT policies, and facilitate member countries to seize digital opportunities for achieving digital transformation;
- Strengthen efforts to reduce digital divide by undertaking assistance programs to promote ICT infrastructure build-up and connectivity, application of new technologies and services and capacity building, with special attention to the specific needs of least developed, landlocked and small island developing countries ;
- Strengthen efforts to cooperate more closely with relevant stakeholders in the ICT sector by enhancing partnership with other regions, international organizations, businesses and academic institutions so as to increase APT's influence and visibility both in the region and the world;

- Strengthen efforts to improve internal management and efficiency, and maximize its limited financial and human resources to ensure that the core purpose of APT are fully achieved and the needs of its member countries are better served.
