

Dear Mrs. Haorangsi
Secretary General
Asia Pacific Telecommunity
Bangkok – Thailand

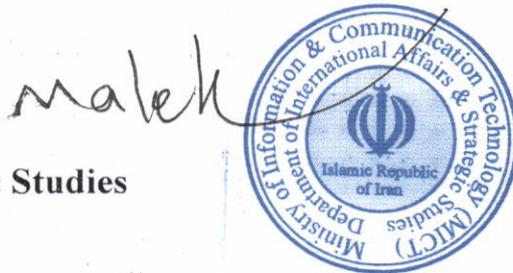

42/13169
8 May.2016

Further to our letter No. 42/54074 dated September 27th, 2015 in respect to nominating Mr. Kavouss Arasteh for chairing the APG, this is my pleasure to advise to you the candidature of Mr. Taghi Shafiee, for chairmanship of the APG-WP4 "Chapter 4: Satellite and Services".

As the current chairman of APG-WP6 "Chapter6: General Issues" Mr. Shafiee is a capable and well-known candidate to the members of APT. He benefits from relevant experiences and can constructively contribute to the progress of the APG during his tenure.

Attached please find his CV for further perusal. Your kind consideration and appropriate action regarding our both candidates is highly appreciated. /16/4/

Sincerely
Hossein Malek
Director General
International Affairs and Strategic Studies

Curriculum Vitae

Fax : +98 31 3624 2052
e-mail : shafiee@ties.itu.int , shafiee@cra.ir

2. Educational Background

- **Master of Science in Telecommunications Engineering,**
1992 to 1995, Tehran K.N. Toosi University of Technology, I.R. IRAN.
- **Bachelor of Science in Electronics Engineering,**
1987 to 1992, Isfahan University of Technology, I.R. IRAN.

3. Professional experience

2008 – Present

Director General, Regional Office, Communications Regulatory Authority, Ministry of ICT.
As Director General, Mr. Shafiee is responsible for Spectrum Monitoring and Law enforcement in a large area of the country including five provinces. He is also responsible for surveillance of ICT operators.

1998 - 2008

Director General, Specialized International Organizations Bureau, Communications Regulatory Authority, Ministry of ICT, Tehran, IRAN.

The CRA (former Directorate General of Telecommunications), *inter alia*, is responsible for spectrum management in Iran and represents the Iranian Administration in International Telecommunications Union (ITU) and Asia- Pacific Telecommunity (APT).

Since Mr. Shafiee joined the CRA in 1998, he has progressively assumed more responsibilities in the area of spectrum management and involved with the development of national spectrum management system and harmonization of this system with the Radio Regulations, updating National Table of Frequency Allocations, national spectrum policy, and national radio regulations and spectrum monitoring.

As Director General, his regular duties, among many others, included:

- full responsibilities of the Administration of the I. R. Iran with respect to the Radio Regulations including:

- consideration of the ITU-R Circulars (BR IFICs, CRs, CAs, etc.) and taking all necessary action with cooperation of the related entities or departments,
- consideration of the draft Rules of Procedures prepared by the Radiocommunication Bureau (CCRR Circulars) and provide comments on these draft Rules for submission to the Bureau,
- submission of space and terrestrial frequency notifications to the Radiocommunication Bureau,
- to prepare and lead the Iranian delegation in different regional and international radiocommunication conferences and meetings, and harmonization of the national views under agenda items of these events,
- to prepare and present technical and regulatory studies in World and Regional Radiocommunication Conferences,
- to conduct bilateral and multilateral frequency coordination meetings for space and terrestrial services with other administrations within the framework of the Radio Regulations.
- to provide regulatory advice to other entities involving with radiocommunications,
- to be in charge of all required correspondence with ITU and other administrations within the framework of the Radio Regulations,
- to arrange and organize international (including ITU's and APT's) seminars, workshops and meetings in the I.R. Iran,

1997 to 1998,

Director, Broadcasting Network Planning,
Planning and Development Affairs, Iran Broadcasting Organization (IRIB), Tehran.

1995 to 1997

Expert, Broadcasting Network Planning,
Planning and Development Affairs, Iran Broadcasting Organization (IRIB), Tehran.

Mr. Shafiee joined the Iran Broadcasting Organization (IRIB) in 1995 as the lead engineer responsible for planning and installation of broadcasting stations to cover the territory of I.R. Iran by different television and sound broadcasting networks. His responsibilities included conducting site surveys, determining power and coverage area of broadcasting transmitters, and performing post-installation testing validation.

He was also responsible for broadcasting technology assessment and began his involvement in the ITU in 1995 by participating in the Radiocommunication Study Group activities dealing with terrestrial and space broadcasting services.

1995 to 1999

During this period and in parallel with his work in IRIB and CRA, Mr. Shafiee has served as part-time lecturer of electronics and communications courses in Azad University, Tehran, I.R. Iran and succeeded to compile two books which are published in 5000 copies per year. The third one is also under publication.

4. Publications

- Electronics Circuits, Analysis and Design,
Volume I, April 1997, 400 Pages, Bahaiee Publications, Isfahan, I.R. IRAN.

- Electronics Circuits, Analysis and Design,
Volume II, October 1998, 440 Pages, Bahaiee Publications, Isfahan, I.R. IRAN.
- Electrical Circuits,
Volume I, 2013, 600 Pages, Bahaiee Publications, Isfahan, I.R. IRAN.

5. Training Courses and Workshops

- Satellite Communications Training Course,
26 Oct. to 6 Nov. 1998, Advanced Level Telecom Training Center, Ghaziabad, India.
- ITU-R Seminar and Workshop, Space Software, 1999, Tehran, Iran.
- ITU-R Seminar and Workshop, ITU-R Software, 21-25 April 2001, Tehran, Iran.

6. International Activities

In relation to his duties in the Administration of Iran, Mr. Shafiee has participated in many ITU and APT events. He has participated in the work of a variety of ITU-R Study Groups, World Radiocommunication Conferences, Workshops, Seminars and Special Committee on Regulatory/Procedural Matters (SCRPM).

Mr. Shafiee has been national coordinator for preparatory work for various international radiocommunication conferences/meetings and served as leader and spokesman of Iranian delegation to such events including Radiocommunication Assemblies RA-2000, RA-2003 and RA-2007, World Radiocommunication Conferences 2000, 2003 and 2007, Regional Radiocommunication Conferences 2004 and 2006 (RRC-04, RRC-06), all APT preparatory meetings for WRC-2000, WRC-2003, WRC-2007 and WRC-2012. He was also a key person of the Iranian delegation to the World Telecommunication Development Conference (WTDC-02), 2002 and 2006 Plenipotentiary Conference (PP-02 and PP-06).

As Vice-Chairman of the Special Committee, he has served as chairman of SC Working Group for satellite regulatory issues during 2007-2012 to prepare for WRC-12. He also served as Chairman of the Special Committee during 2012-2015 to prepare for WRC-15.

During WRC-2012, Mr. Shafiee chaired Working Group 6C of the Conference to establish the Agenda of WRC-15 and Preliminary Agenda of WRC-19.

He is also active in Asia-Pacific Telecommunity Preparatory Group (APG) for world radiocommunication conferences and has chaired various drafting groups and working parties in preparation for WRC-2000, WRC-2003, WRC-2007, WRC-2012 and WRC-2015.

He has served as APT spokesman and topic/chapter coordinator for various issues during WRC-2000, WRC-2003, WRC-2007, WRC-2015.

RA-2015 appointed Mr. Shafiee as Vice-chairman of the CPM-19.
